## Smart Trailers are the next evolution in mobile site protection.

[Source1Solutions.com/smartsitemonitoring](https://Source1Solutions.com/smartsitemonitoring)

From the first shovel in the ground to the hand off of the keys, Source 1 Solutions is providing the next evolution in mobile site protection. Instead of paying for guards, dogs, or outdated cameras, our solarpowered surveillance trailers deliver around-the-clock protection anywhere you need it: construction sites, remote facilities, event spaces, or temporary projects.

- 
**Clean, Reliable Power**  
 Solar panels and high-capacity batteries keep the system running day and night, without fuel, noise, or emissions. It's a sustainable solution that saves money while protecting your site.
- 
**Complete Coverage**  
 High-definition cameras provide 360° monitoring, with options for mast heights and configurations to fit your site. With 4G/5G connectivity, you can check in anytime, anywhere.
- 
**Fast & Flexible Deployment**  
 Compact and towable, SiteSecur can be positioned and operational within minutes. Perfect for sites that need immediate, reliable security without complicated setup.

### Source 1 Solutions Advantage

- 
**24/7 Peace of Mind:** Continuous monitoring, day and night.
- 
**Eco-Friendly:** Zero-emission solar power.
- 
**Cost-Efficient:** A smarter alternative to guards and patrols.
- 
**Flexible Applications:** Ideal for construction, utilities, infrastructure, and events.
- 
**Backed by Source 1 Solutions:** Global service, proven expertise, customer-first support.
